Egmont toys
a world of imagination

Egmont Toys, designer and manufacturer of toys and other fine things for children was founded in 1994. Our in-house designer Gaëtane Lannoy has developed her own very particular style, using creative tools such as pencil, brush and paint and with a focus on traditional, educational and high quality toys.

For the manufacturing of our toys, wherever possible, we work with traditional manufacturers in Europe (one of our partners has a history going back till 1873!). For items where we have no choice but to manufacture outside of Europe we have developed a long term cooperation with reliable partners.

Quality and safety are of the utmost importance. All of our toys are controlled and tested according to international safety regulations (CE, ASTM,...) and we do quality checks ourselves in the factories we work with on a regular basis.
